ELKHART COMMUNITY SCHOOLS

Bristol Elementary is tucked away in beautiful Bristol, Indiana, a small town of 1,600 people. With a total student population around 500 students, Bristol Elementary is a small, community school with the many benefits of being part of a larger school district. Bristol is home to one of the few classrooms in the state who achieved 100% high growth on the ISTEP+ math assessment, and averages 90% or high for third graders passing the I-READ3 assessment.

The sense of community and family at Bristol can be felt the minute you enter the building. Bristol is fortunate to be home to families who have a high level of involvement in the school. Parent nights, parent-teacher conferences, muffins-and-moms and dads-and-donut, grandparents day, and fun, family evening activities are highly attended by parents, families and the community.

We welcome you to visit Bristol for a tour and to understand the long legacy of our great school.
