

ELKHART COMMUNITY SCHOOLS
RE-ENTRY PLAN

**2020-2021
SCHOOL YEAR:**

**SAFELY EDUCATING ELKHART'S STUDENTS WHILE
ADDRESSING THE CHALLENGES OF COVID-19**

ELKHART
COMMUNITY SCHOOLS

JULY 15, 2020

MESSAGE FROM SUPERINTENDENT AND BOARD OF SCHOOL TRUSTEES

Elkhart Community Schools is fully committed to working together with community agencies and parents to prepare for the reopening of schools in Fall 2020.

As COVID-19 continues to change our collective landscape, school districts must find a way to meet the challenges of providing safe instruction to all students. Elkhart Community Schools is committed to working with our neighboring school districts, the Elkhart County Department of Health, Elkhart Emergency Management, and the Indiana Department of Education as we navigate this time together.

Recognizing that there is no one-size-fits-all approach to reopening schools and meeting parents' preference, we've reached out to parents, staff, and community members to seek feedback. This invaluable feedback provided voices to help us shape the coming months of school. We recognize that flexibility will be paramount as we embark on the 2020-2021 school year and hope the options presented in this document help parents and staff find a system that works best for their family.

The district will continue to work with our local agencies and neighboring school districts to evaluate the conditions in Elkhart County and make adjustments to this plan as needed. ***These plans are subject to change.***

Regards,

Dr. Steve Thalheimer / *Superintendent of Schools*
Babette Boling / *Board of School Trustees, At Large*
Susan Daiber / *Board of School Trustees, District A*
Rodney Dale / *Board of School Trustees, At Large*
Rocky Enfield / *Board of School Trustees, District B*
Carolyn Morris / *Board of School Trustees, District D*
Kelli Mullins / *Board of School Trustees, At Large*
Doug Weaver / *Board of School Trustees, District C*

ELKHART COMMUNITY SCHOOLS

RESOURCES

The Elkhart Community Schools 2020-2021 School Year Planning Guide was created using the guidance and expertise of many local and national resources. ECS encourages parents and staff to review the following resources in full detail.

- *Indiana’s Considerations for Learning and Safe Schools (IN-CLASS), joint guidance issued June 5 by the Indiana Department of Education (IDOE), the Indiana State Department of Health (ISDH), and the Indiana Family & Social Services Administration (FSSA)*
- *Governor Eric Holcomb’s “Back on Track” plan*
- *Centers for Disease Control and Prevention (CDC) “Considerations for Schools” and Decision Tree*
- *“Roadmap to a Healthy Opening” from Parkview Health and Greater Ft. Wayne Metro Chamber Alliance*
- *Georgia Department of Public Health’s “Path to Recovery for K-12 Schools”*
- *American Academy of Pediatrics “COVID-19 Planning Considerations: Guidance for School Re-entry”*
- *Butler University Experiential Program for Preparing School Principals “EPPSP Blueprint 2020: A Guidebook for School Leaders Moving Forward”*
- *California Department of Education Coronavirus Response and School Reopening Guidance*
- *White House and CDC “Opening Up America Again” plan*
- *EDWeek Video Highlighting Updated CDC Guidance*

GUIDELINES FOR A HEALTHY RE-OPENING

FEDERAL: The federal government’s “Opening Up America Again” criteria include:

- *Downward trajectory of influenza-like illness reported within a 14-day period AND downward trajectory of COVID-like syndrome cases reported within a 14-day period.*
- *Downward trajectory of documented cases of COVID-19 within a 14-day period OR downward trajectory of positive tests as a percent of total tests within a 14-day period.*
- *Capacity for hospitals to treat all patients without crisis care AND implementation of robust testing program for at-risk healthcare workers, including emerging antibody testing.*

STATE: Governor Holcomb’s “Back on Track” plan for Indiana follows four Guiding Principles:

- *The number of hospitalized COVID-19 patients statewide has decreased for 14 days*
- *The state retains its surge capacity for critical care beds and ventilators*
- *The state retains the ability to test all Hoosiers who are COVID-19 symptomatic, as well as healthcare workers, essential workers, first responders, and others as delineated on the ISDH website*
- *Health officials have symptoms in place to contact all individuals who test positive for COVID-19 and complete contact tracing*

EDUCATION: IDOE’s IN-CLASS re-entry guidance highlights two considerations:

- *The school’s ability to maintain a safe and healthy school environment, and*
- *The prevalence of COVID-19 in their community*

SURVEYS

While Elkhart Community Schools must adhere to guidelines set forth by the CDC and IDOE, the district does have *some* flexibility on how our schools may look and deliver instruction, based on the local status of COVID-19, local guidance from the Elkhart County Health Department, staff feedback, and feedback from parents and guardians. The decisions made by the district strongly take into account the feedback of staff and parents/guardians.

ECS staff were invited to participate in an online survey from June 23 through July 2. ECS parents and guardians were invited to participate in an online survey from June 24 through July 2. The parent/guardian survey was available in English and Spanish. Respondents represented all buildings, grade levels, and departments.

In their respective surveys, staff and parents/guardians were asked to rank their preference (1-3, with 1 being the most preferred and 3 being the least preferred) of three options:

Option 1: All students every day with the following considerations:

- CDC recommendations and current Elkhart County directives indicate that when social distancing is not possible people should wear masks. In full classrooms and on buses where there is not room to physically distance, students and staff would be expected to wear masks.
- Schedules within the day may not be “normal” as there will be adjustments necessary for certain activities. For example, physical education, other ‘specials’ classes, and lunch service may be different from the past.
- Transportation may be altered as we attempt to reduce capacity on some buses to provide distancing as much as possible.

Option 2: Half of the students reporting on alternating days with the following considerations:

- CDC recommendations and current Elkhart County directives indicate that when social distancing is not possible people should wear masks. In classrooms with fewer students, there would be opportunities for masks to be removed during parts of the day. On buses where there is not room to physically distance, students would be expected to wear masks.
- Two or three days per week would be conducted in person while the other days would be online learning from home; there would be expectations for work completion and participation daily in eLearning on the days when a student is not reporting to school.
- Students participating in after-school activities would need to provide their own transportation to those activities on the days not in school.
- Transportation may be altered as we attempt to reduce capacity on some buses to provide distancing as much as possible.

Option 3: Online virtual learning full time with the following considerations:

- All student learning would take place daily online. This could be a combination of videos, live-streamed instruction, online resources, and teacher-created materials.
- Students enrolled exclusively in online classes would have a teacher or teachers assigned to multiple students doing online learning in a virtual classroom setting.
- A schedule for online learning and daily expectations for participation would be outlined by the teacher at the beginning of the course. Based on current guidance, selecting an online option could adversely affect the ability of a Career & Technical Education student to complete a pathway or program.

SURVEY RESULTS

ELKHART COMMUNITY SCHOOLS: STAFF

1,037 participants

Options	Preference 1	Preference 2	Preference 3
Option 1 All students, every day	38.09% 395	29.41% 305	32.50% 337
Option 2 Half of students on alternating days	46.38% 481	45.42% 471	8.20% 85
Option 3 Online virtual learning	15.53% 161	25.17% 261	59.31% 615

ELKHART COMMUNITY SCHOOLS: PARENTS/GUARDIANS

2,320 participants, representing a total of 4,135 students

Options	Preference 1	Preference 2	Preference 3
Option 1 All students, every day	37.97% 881	23.45% 518	38.58% 895
Option 2 Half of students on alternating days	36.68% 851	53.84% 1,249	9.48% 220
Option 3 Online virtual learning	25.34% 588	22.72% 527	51.94% 1,205

ANALYSIS

While the parent survey yielded no strong preference toward any single option, the staff survey did demonstrate a noticeable preference for Option 2. *When considering first and second choices, over 91% of ECS staff prefer Option 2.*

Looking at the parent feedback, *over 90% of parents list Option 2 as their first or second preference*, much higher than Option 1 (*with 61.42% of parents ranking Option 1 as their first or second preference*) and Option 3 (*with 48.06% of parents ranking Option 3 as their first or second preference*). *The district also strongly took into account survey questions focused around Option 2, regarding parents/guardians' ability to provide meals, childcare, and transportation to afterschool extra-curriculars.*

While the district recognizes many strong outlying opinions on how to re-open schools, we have placed a significant emphasis on the comprehensive results of the survey to guide our decisions. We are striving to prioritize student, staff, and community health, while using parent/staff feedback to guide how we re-open schools.

EDUCATIONAL PLAN OPTIONS

Elkhart Community Schools has established two plan options for students for the first half of the 2020-2021 school year. The district will formally review the status of COVID-19 in Elkhart County, as well as overall climate, health, and educational progress of our students/schools, in late November 2020. At that time, the district will determine if we continue with the two plans described below for the second half of the school year or adjust based on the needs and health of our families and community.

PLAN 1: HALF OF STUDENTS, ALTERNATING DAYS

- ***Students will attend school two days per week, with three days of scheduled eLearning per week.***
- Elementary: Students will physically attend school on M/W (Group A) or T/Th (Group B). On the days when students are not physically attending school, they will be expected to complete eLearning activities. For elementary students, “specials” classes will alternate weeks between in-person and online.
- Middle: Students will physically attend school on M/W (Group A) or T/Th (Group B). For the first nine weeks, middle school students will complete periods 1, 2, 5, and 6 in person. For the second nine weeks, middle school students will complete periods 3, 4, 7, and 8 (period 8, if applicable) in person.
- High: Students will physically attend school on M/W (Group A) or T/Th (Group B). For the first nine weeks, high school students will complete Blue days (periods 1, 2, 3, 4) in person. For the second nine weeks, high school students will complete Gold days (5, 6, 7, 8) in person.
- On the days when students are not physically attending school, they will be expected to complete eLearning activities.
- Fridays will be eLearning for all students in grades K-12.
- Plan 1’s eLearning will be planned and led by students’ classroom teachers, and focus on practicing and demonstrating proficiency on skills on which students have received in-person instruction.
- Content covered in eLearning will be connected to content covered during in-person instruction.
- Students will be grouped in Group A / B based on home address to ensure siblings who live together will attend school on the same day.

PLAN 2: ONLINE VIRTUAL LEARNING FROM HOME

- ***Students will stay enrolled in their home school, but will complete all learning online from home.***
- Elementary: Depending on the total number of students, a teacher (or multiple teachers) will be assigned a specific grade level. This teacher (or teachers) will have a co-hort (“classroom”) of students from across the district.
- Middle and High School: Depending on the total number of students, a teacher (or multiple teachers) will be assigned a class (or multiple classes), based on topic. This teacher (or teachers) will teach many students from across the district.
- Instruction will look much different than the emergency eLearning our students experienced from mid-March through May 2020. Teachers will use digital video to deliver curriculum and engage with students. Students will have an opportunity to engage in group discussions focused on classroom curriculum.
- Students may be clustered according to their identification as high ability, special education, etc. to ensure they are learning engaging and challenging content based on their specific needs. Appropriately licensed teachers will lead these classrooms.

WHAT FAMILIES CAN EXPECT WHEN SCHOOLS REOPEN

The health of students and staff at Elkhart Community Schools has been, and will continue to be, the most important consideration when the district makes decisions. When the 2020-2021 school year begins, parents and students will notice drastic differences in the operation of our school buildings.

Elkhart Community Schools will focus sharply on academic instruction to maximize student learning. At the same time, we will try to maintain some extracurricular programs, clubs, and athletics that are important to the physical, mental, and social well-being of our students.

Parents can expect extra precautionary measures, such as limited capacity in offices and classrooms, hand sanitizer, extra handwashing and extra sanitization throughout the building. Parents will also notice, or hear about, changes in lunch procedures, recess, gym, music, and assemblies.

Each student will receive two washable/reusable masks from the school district. Students are expected to wear masks on buses and in common areas of the school, such as hallways, cafeterias, school offices, nurses offices, and restrooms. Once seated in their classrooms, the teacher will inform students when it is safe for them to remove their masks. **Elkhart Community Schools remains committed to the safe education of all students.**

Throughout this pandemic, schools across the state and country are coping with continued decreases in funding. Schools are being asked to do much more, including operating buses at less than half-capacity, classrooms at less than half-capacity, additional sanitization, extra health precautions, masks, flexible hybrid learning, home wellbeing checks, additional mental health support, additional family support, and more with no additional baseline funding. We will continue to do these things to the best of our ability because they are the right thing to do. The greatest thing you can do to support our efforts in taking care of your children, and in taking care of the people who take care of your children, is to remain enrolled, engaged, and patient with us as we navigate this unknown educational landscape. Your support of public education is all the more important now as we enter the call to serve in ways we never expected.

To read more about the specific things families can expect when schools reopen, please see the following pages. We are including the basic information, followed by detailed information that takes into account the level of community spread, as determined by the Elkhart County Health Department.

SAFETY PRECAUTIONS

HOME SCREENING (IMPORTANT)

Parents need to take their childrens' temperatures before going to school. Anyone with a fever of **100.4 F** or higher should **not go to school**. *Please do not give your child medicine to reduce the fever and send him/her to school. If your child has a fever, you need to consider him or her contagious.* Students should be free of fever without medicine for **24 HOURS** before returning to school. We must insist these CDC guidelines are followed to protect our students, staff, and community. The school district has also asked all staff members to take their temperature before work and to stay home if they are symptomatic.

Additionally, students (parents) and staff should also screen themselves for **sore throat, new uncontrolled coughing that causes difficulty breathing** (for students with existing/chronic respiratory issue - watch for any change in their normal coughing/breathing), **diarrhea, vomiting, abdominal pain, new onset of a severe headache** (especially with a fever), and **loss of taste or smell** prior to coming to school each day. Students and staff experiencing any of these symptoms (including a fever) should not come to school/work.

TRANSPORTATION

All students who ride an Elkhart Community Schools bus will be **required** to wear a mask. Bus drivers will assign seats to all students who ride buses. Students will be seated two children per seat. Siblings who ride the bus together will be asked to sit together.

ARRIVAL

For bus riders, students will exit the bus and go straight to their classroom (or stop in the cafeteria first to pick up breakfast), where they should apply hand sanitizer upon arrival. For students who are car riders, we ask parents to not drop off earlier than when the doors are open to prevent students from gathering. Students who walk to school will be asked to do the same. Schools will use staggered arrival and dismissal times to prevent groups from gathering.

Students should arrive at school wearing a mask. They will be allowed to remove their mask when they are at their desks and their teachers have instructed that it is safe to do so.

To begin the school year, students and staff will have random temperature checks taken upon arrival. This policy will be revisited upon consideration of improving health conditions within Elkhart County.

MAIN OFFICE

Elkhart Community Schools' main school building offices will be fit with plexiglass where possible to ensure safety for our office staff and students. Parents who are picking up their child for an appointment are asked to call the school prior to pick-up. Parents who are picking up their child for an illness are asked to call the school from the parking lot.

SAFETY PRECAUTIONS

CLASSROOM INSTRUCTION

Within classrooms, student desks will be facing the same direction. Students will be discouraged from actively moving around the classrooms unless instructed by a teacher. If students can be seated 6' apart, they will be allowed to remove masks if they choose to do so. Students will also be allowed to keep their masks on if they choose to do so, unless specifically instructed otherwise by a teacher or staff member.

If students engage in small group work or discussion, they will be required to wear masks.

Teachers will utilize outdoor spaces as weather permits and large spaces (gym, auditorium, etc) when possible. Spaces that are outdoors or with ample room for social distancing will not require masks to be worn.

Students will be discouraged from sharing personal items, such as pencils, crayons, markers, notebooks, and iPads. Parents are asked to clearly label items when possible.

TRANSITIONS AND PASSING PERIODS

All students will be required to wear masks while walking through hallways. All hallways will have designated directional arrows for students to follow or may require students to remain near the lockers and walls. Passing periods for middle and high school students may be staggered as needed to reduce traffic. Students who intentionally do not abide by the hallway guidelines may face disciplinary action.

Drinking fountains in all buildings will be disabled. Students are encouraged to bring a bottle from home and will be allowed to refill it as needed. ECS Food Service is looking into offering bottled water as part of breakfast and lunch.

Elementary students will use restrooms facilities attached to their classroom, if their classroom has attached facilities. For classrooms without attached restroom facilities, bathroom breaks will be scheduled and staggered with other classrooms to allow frequent restroom sanitation and to reduce students from congregating. All schools will schedule transitions to minimize the risk of student gatherings.

SAFETY PRECAUTIONS

BREAKFASTS/LUNCHESES

Elementary students' breakfasts will be "grab and go" from the cafeteria. Students will eat breakfast at their desks. Middle/high school students will pick up breakfast before the start of their first class.

Students will be allowed to wash their hands before and after meal service. Additionally, hand sanitizer stations will be available to students and staff prior to entering the serving line and when exiting the serving line. Additional hand sanitizer will be available at tables throughout the cafeteria. Masks will be required while students are in line. Masks can be removed to eat.

Students will eat lunch in the cafeteria. Elementary students will have designated areas where they may eat with their class. Students will be distanced and allowed to remove their masks to eat. Middle/high school students will be expected to socially distance.

SPECIALS / MUSIC

When possible, students will attend specials in their designated area (i.e. gym, art room, etc). For the beginning of the school year, elementary music will be taught inside students' traditional classroom.

Additional information will be announced soon for band, orchestra, and choir students in Grades 6-12.

VISITORS

Elkhart Community Schools will limit visitors to essential support, such as mental health partners, government agencies, and construction contractors. All visitors will be asked to complete a screening checklist and a temperature check will be taken. All visitors must wear a mask, unless proper social distancing is possible. Parents will not be able to eat lunch with their children or visit their child's classroom. For the time being, there will not be special guest speakers or assemblies. The school retains the right to deny admittance to outside visitors.

NURSES OFFICE

Each school building will contain a nurse's area for traditional use - bumps, scrapes, medications - and a separate isolation area for any individual who is exhibiting symptoms of COVID-19. If a student is exhibiting symptoms of COVID-19, a parent or emergency contact **must** pick up the child within an hour. Please ensure you have emergency contacts who can promptly pick up your child.

If your child has a medical condition that may mimic symptoms of COVID-19, such as asthma that results in labored breathing, please contact your family physician for documentation for the school.

SAFETY PRECAUTIONS

ROUTINE SANITIZATION / CLEANING

Elkhart Community Schools has a high standard for cleanliness and safety and is committed to upholding these standards with our intensive cleaning process. Enhanced cleaning protocols have been put in place as a result of COVID-19 and are based on current local health and government guidelines.

The custodial staff at ECS will use EPA-registered cleaning agents for disinfection, with an increased frequency of disinfecting high touch surfaces throughout the day:

- Door knobs
- Handrails
- Light switches
- Restroom fixtures
- Keyboards and mouse

Areas of enhanced focus:

- Restrooms and locker rooms
- Cafeterias
- Classroom desks
- Media centers
- Kitchen and/or break areas
- Vending machines
- Copier/printers
- Front desk and lobby areas
- Equipment

Students will also play a part in keeping their areas clean. Students may be asked to put their items away and wipe down their desks or equipment at the end of the day.

Buses will be thoroughly cleaned and sanitized between routes and at the end of the day.

HANDWASHING

One of the greatest preventive measures that can be taken against the spread of COVID-19 is handwashing. Students will be asked to wash their hands multiple times throughout the day and will be provided with extra opportunities and time to do so. Our staff will emphasize proper handwashing and all sinks will have handwashing instructions with words and photos. Classrooms will have hand sanitizer for use when handwashing may not be possible. Students are welcome to bring hand sanitizer for personal use, but are not required to do so. Students will be discouraged from sharing personal items from home.

RESPONSIVE MEASURES: COMMUNITY SPREAD

ELKHART COUNTY HEALTH DEPARTMENT

Elkhart Community Schools is working with the Elkhart County Health Department to assess community spread and how it may impact our students. The ECHD has determined three levels of spread:

Substantial Spread, **Minimal/Moderate Spread**, and **Low/No Spread**

Please review the following pages to understand what this means and how it will impact our schools.

Addressing Community Spread in Schools: Stages of Spread Defined Level of Community Spread will be determined by the Elkhart County Health Department		
Substantial Spread	Minimal/Moderate Spread	Low/No Spread
<ul style="list-style-type: none"> • COVID spread is such that rolling closures are needed (could be short term or long term) • Substantial active exposure cases or absences impacting school building attendance, and staffing • Coordinate with local and state department of health officials • Participate in contact tracing efforts and specimen collection efforts as directed by local health officials (to the extent feasible) • Schools that are closed, remain closed. Implement distance/remote learning • Close off affected areas and if possible, wait 24 hours before cleaning and disinfecting. • Consider ways to accommodate needs of children, teachers/staff, and families at higher risk for severe illness 	<ul style="list-style-type: none"> • Minimal or moderate active exposure cases at school buildings or in the community. • Establish and maintain communication with local and state department of health officials • Participate in contact tracing efforts and specimen collection efforts as directed by local health officials (to the extent feasible) • Implement enhanced social distancing measures • Post signage in classrooms, hallways, and entrances to communicate how to stop the spread. COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols • Establish a protocol for students/staff who feel ill/experience symptoms when they come to school • Isolate and deep clean impacted classrooms and spaces • Consider ways to accommodate needs of children, teachers/staff, and families at higher risk for severe illness 	<ul style="list-style-type: none"> • Low to few known active exposure cases at school buildings or the community • Establish and maintain communication with local and state health officials • Post signage in classrooms, hallways, and entrances to communicate how to stop the spread. COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols • Establish a protocol for students/staff who feel ill/experience symptoms when they come to school • Consider ways to accommodate needs of children, teachers

Transporting Students Level of Community Spread will be determined by the Elkhart County Health Department		
Substantial Spread	Minimal/Moderate Spread	Low/No Spread
<p>School buildings are closed. No student transportation.</p> <p>District/School Considerations:</p> <ul style="list-style-type: none"> Potentially use transportation to deliver student meals Reduce contact by delivering a week's worth of meals during a designated time (ex: delivering a week's worth of meals every Monday)² <p>²Subject to future USDA meal waiver approval</p>	<p>District/School Considerations:</p> <ul style="list-style-type: none"> Training: Drivers, bus monitors and aides, and other transportation personnel will be trained in signs and symptoms of COVID, proper cleaning protocols, and managing students in the age of COVID Social Distancing: Given the setting of the school bus, we acknowledge that social distancing is not regularly feasible and therefore, the expectation for students to remain seated, facing forward using good social habits will be emphasized using assigned seating and a one stop location policy to assist with contact tracing. The district will transport with two students per seat and students and driver wearing face coverings Personal Hygiene and Health, PPE: Per mandate of Elkhart County, masks are required for all staff and students on buses wherever physical distancing is not possible. The district will provide masks and other appropriate PPE to staff and allow students and staff to bring hand sanitizer and face masks/coverings to use from home. Staff may wear other appropriate PPE as desired. Staff will promote behaviors and use of personal hand sanitizer to reduce spread of germs and support school building education regarding these behaviors. In the event that social distancing on a bus is not feasible, riders and staff will be expected to wear face covering to reduce the potential spread of germs. <p style="text-align: center;"><i>-continued on next page-</i></p>	<p>District/School Considerations:</p> <ul style="list-style-type: none"> Per mandate of Elkhart County, masks are required for all staff and students in classrooms, hallways, common areas, cafeterias, buses and wherever physical distancing is not possible. Implement standard operating procedures while taking preventative measures such as: <ul style="list-style-type: none"> Providing hand sanitizer for students and bus drivers Requiring bus drivers and students to wear face masks/coverings when distancing is not possible Limiting field trips (to areas of limited/low transmission) Inspecting buses prior to students returning and as part of a regular rotation Cleaning and disinfecting frequently touched surfaces on the bus at least daily Airing out buses when not in use

RESPONSIVE MEASURES: COMMUNITY SPREAD

Transporting Students Level of Community Spread will be determined by the Elkhart County Health Department		
Substantial Spread	Minimal/Moderate Spread	Low/No Spread
	<p><i>-continuation of previous page-</i></p> <p>District/School Considerations:</p> <ul style="list-style-type: none"> • Cleaning: Frequently touched surfaces will be cleaned with approved cleaning supplies that are stored safely. Cleaning protocol will be established and occur at least daily and between bus use as much as possible • Ventilation: Safe and proper use of open windows and hatches along with fans will be encouraged to allow for increased ventilation • Bus Stops: Social distancing at bus stops is encouraged. Parents/guardians will have responsibility for students at bus stops • Loading and Unloading: Drivers will evaluate and establish loading and unloading procedures customized to their route and ridership to minimize student contact where feasible. Schools will evaluate and establish loading and unloading procedures customized to their building procedures to limit student contact where feasible. Students will be assigned to seats; this will assist with contact tracing should it be required. Students first on the bus should be seated in the rear of the bus to not pass by other students, and students last on the bus toward the front should be the first ones to unload. Siblings should sit together • Learning/Field Trips: Learning/Field trips will be suspended until further evaluation 	

RESPONSIVE MEASURES: COMMUNITY SPREAD

Entering School Buildings Level of Community Spread will be determined by the Elkhart County Health Department		
Substantial Spread	Minimal/Moderate Spread	Low/No Spread
School buildings are closed. Only essential staff report in-person to carry out functions that are absolutely necessary. <ul style="list-style-type: none"> District/school leaders must remain vigilant and purposeful in reporting, refraining from blanket reporting requirements District/school leaders should leverage virtual tools and platforms wherever possible to conduct essential business and keep in-person reporting to an absolute minimum during school closures 	District/School Considerations: <ul style="list-style-type: none"> Per mandate of Elkhart County, masks are required for all staff and students in classrooms, hallways, common areas, cafeterias, buses and wherever physical distancing is not possible. Post signage in classrooms, hallways, and entrances to communicate how to stop the spread. COVID-19 symptoms, preventative measures (including staying home when sick), good hygiene, and school/district specific protocols. Mark spaced lines to enter the building and designate entrance and exit flow paths Screening of students and staff upon arrival to buildings will be implemented All visitors to buildings will follow established protocol Follow the protocol for student pick/drop up (will be determined and communicated at the building level) Follow the established protocols for students/staff who feel ill/ experience symptoms when they come to school 	District/School Considerations: <ul style="list-style-type: none"> Per mandate of Elkhart County, masks are required for all staff and students in classrooms, hallways, common areas, cafeterias, buses and wherever physical distancing is not possible. RESPONSIVE MEASURES: WITHIN THE SCHOOL

EDUCATION

Nurses will use the CDC's *Standard Precautions for All Patient Care* and *Transmission-Based Precautions* when caring for sick individuals.

Students and staff will be trained to recognize the following symptoms, as identified by the CDC:

- **Fever of 100.4 or higher**
- **Sore Throat**
- **New, uncontrolled cough that causes difficulty breathing** (for students with existing/chronic respiratory issue - watch for any change in their normal coughing/breathing)
- **Diarrhea, vomiting, or abdominal pain**
- **New onset of a severe headache** (especially with a fever)
- **Loss of taste or smell**

COVID-19 SYMPTOMS / SUSPECTED COVID-19 / UNTESTED

All school buildings will have an isolation area for individuals (students, staff, visitors) who exhibit symptoms of COVID-19.

If an individual appears symptomatic, the school nurse will come to the individual in the classroom to evaluate. If the individual has symptoms of COVID-19, he or she will be moved to the isolation area until they are picked up. After the individual has left, the isolation room will be thoroughly disinfected. The school nurse will notify ECS Student Services and Chief of Staff, who will notify the Elkhart County Health Department and await further guidance. *If the symptomatic individual is a student, all same-household siblings and household occupants must be picked up immediately and quarantine for 14 days, per the Indiana State Department of Health.*

A symptomatic individual (student or staff) may return to school when the following conditions are met:

1. The individual has been fever-free for 24 hours without fever-reducing medication **AND**
 2. Other symptoms have improved **AND**
 3. At least 10 calendar days have passed since symptoms first appeared
- OR**
4. The individual (and siblings, if applicable) can return to school if tested negative **AND** with a note from the provider stating they believe the patient to have an alternate diagnosis and it is appropriate for the patient to return to school.

Any same-household siblings of a symptomatic student must quarantine for 14 days. If any school-aged same-household siblings develop symptoms during this time in quarantine, they should follow the guidance above to determine when to return. If the symptomatic child tests negative, all same-household siblings can return to school immediately, as long as they do not have symptoms.

RESPONSIVE MEASURES: WITHIN THE SCHOOL

CONFIRMED COVID-19 POSITIVE / SYMPTOMATIC

Elkhart Community Schools will notify all families within the building via email if we are aware of a positive case in a building (student, staff). We will be limited on the information we can legally provide, but will identify which schedule the student is on (M/W or T/Th) and the bus number (if applicable).

An individual (student or staff) who tested positive may return to school only if ALL of the following conditions are met:

1. It has been at least 14 days since the test was taken **AND**
2. At least 10 calendar days have passed since symptoms first appeared **AND**
3. The individual has been fever-free for 24 hours without fever-reducing medication **AND**
4. Other symptoms have improved.

CONFIRMED COVID-19 POSITIVE / ASYMPTOMATIC

Elkhart Community Schools will notify all families within the building via email if we are aware of a positive case in a building (student, staff). We will be limited on the information we can legally provide, but will identify which schedule the student is on (M/W or T/Th) and the bus number (if applicable).

An individual (student or staff) who tested positive may return to school only if the following condition is met:

1. At least 10 calendar days have passed (since the test was taken) with no symptoms.

CONTACT TRACING / HOUSEHOLD CASES

Close contact is described as “*more than 15 minutes within 6 feet.*” Anyone with close contact to an individual who tests positive will be contacted by Elkhart Community Schools. CDC guidelines state that any person who comes into “close contact” with a known positive case of COVID-19 should isolate for 14 calendar days. ***CDC/ISDH guidelines also state that siblings (or other household contacts) of a symptomatic student or any positive case of COVID-19 need to quarantine for 14 days after the last day the positive case was infectious.*** This means the siblings will need to stay home when the positive case is in isolation plus 14 calendar days after the positive case is released.

COMMUNICATION

POWERSCHOOL / SCHOOL MESSENGER

Elkhart Community Schools uses School Messenger, a service provided through PowerSchool, to communicate with families. For all COVID-19 related communication, including notification of suspected or confirmed cases, the district will email families. If you do not have an email address, we encourage you to sign up for a free email account through a service like Google/Gmail.

After July 20 (when our system has rolled over students to the next grade), please log in to PowerSchool to ensure your communication preferences are up to date. After logging on to PowerSchool, click on the **ABC: Annual Back-to-School Check-In** to review and sign your annual forms and review your contact information. At any time during the year, you can review your communication preferences by logging on to PowerSchool, finding the "Contact Manager" in the left-side menu, then launching School Messenger. Once in School Messenger, you can select which types of information to receive and how to receive it. **Please note, the district will utilize EMAIL to communicate COVID-19 information to parents.**

Back-to-School Face Covering Guidance for Families

Students and educators are facing many new challenges when they return for the 2020-2021 school year, including the recommendation that face coverings be worn. This two-sided document is designed to help families support students with acclimating them to appropriately wear a face covering and provide protocols for safe and effective maintenance of face coverings.

1 Get Familiar

Follow these steps when using your face covering:

- Wash your hands before touching the face covering.
- Put it over the nose and mouth and secure it under the chin.
- Make sure the covering fits snugly against the sides of the face.
- Make sure your child can breathe easily.

2 Start Now

It takes a lot of repetition to develop a habit. It is recommended that families begin having their school-aged children practice wearing a face covering for short periods in the days leading up to the start of school.

3 Set Rules

Talk to your child about appropriate use for their own face covering and the face coverings of others. Remind your child of the following examples of face covering etiquette:

- Keep your hands to yourself. Do not touch anyone else's face covering.
- Do not share face coverings with other people.

4 Reassure

The changes students experience at school can be scary to our youngest Hoosiers. Take the time to reassure your child that the protective measures being taken are meant to keep students, teachers, and other adults in the school healthy. Remember, families mold the attitude of students. Your support is appreciated!

More Information on the Reverse Side

Caring for Your Cloth Face Covering

Take Off Your Face Covering Carefully, When You Are Home

- Untie the strings behind your head or stretch the ear loops
- Handle only by the ear loops or ties
- Fold outside corners together
- Place covering in the washing machine or wash by hand
- Be careful to not touch your eyes, nose, or mouth and wash hands immediately after removal

How to Clean Your Face Covering

- **Washing Machine**
 - Wash your face covering with your regular laundry
 - Use regular laundry detergent and the warmest appropriate water setting for the cloth used for the face covering

How to Clean Your Face Covering

- **Washing by Hand**
 - Prepare a bleach solution by mixing:
 - 5 tablespoons ($\frac{1}{3}$ cup) household bleach per gallon of room temperature water
 - 4 teaspoons household bleach per quart of room temperature water
 - Check the label to see if your bleach is intended for disinfection. Some bleach products, such as those designed for safe use on colored clothing may not be suitable for disinfection
 - Ensure the bleach product is not past its expiration date
 - **Never mix household bleach with ammonia or any other cleanser**
 - Soak the face covering in the bleach solution for five minutes
 - Rinse thoroughly with cool or room temperature water

How to Dry Your Face Covering

- Make sure to completely dry cloth face coverings after washing
- **Dryer**
 - Use the highest heat setting and leave in the dryer until completely dry
- **Air Dry**
 - Lay flat and allow to completely dry. If possible place the cloth face covering in direct sunlight
