

Elkhart's **Freshman Division** provides students with the critical time for transitioning into college and career focused education, while providing them with opportunities for leadership. The Freshman Division will provide students the opportunity to focus on general studies, while exploring courses offered by the six schools of study.

Transition Principal: JeNeve Adams

Students in the **Engineering, Technology, and Industry** school of study will develop an understanding of real-world solutions from conceptualization through completion, through the use of technology, engineering design, and advanced manufacturing. Career fields include: aeronautics, architecture, automotive, CAD, information technology, physics, welding.

Transition Principal: Scott Sassaman

Students in the **Arts & Communication** school of study will develop an understanding of creatively expressing and interpreting meaning through words, design, and various media. Career fields include: advertising, audio/visual, cinematography, commercial art/illustration, graphic arts, performing arts, music, web design.

Transition Principal: Kelly Berheide

Students in the **Health & Public Safety** school of study will develop an understanding of advancing the physical and social health of individuals and communities. Career fields include: law enforcement, public safety, firefighting, EMT, medicine, nursing, athletic training, mental health, food science, forensic science, radiology.

Transition Principal: Kelly Blair

Students in the **Business and International Relations** school of study will develop an understanding of impacting local and international commerce, cultures, and politics. Career fields include: business management & administration, finance, government & public administration, marketing, sales, and entrepreneurship.

Transition Principal: Matt Werbiansky

Students in the **Human Services** school of study will develop an understanding of improving the quality of human life, through a focus on human development and services. Career fields include: culinary arts, childcare, cosmetology, counseling, education, hospitality management, social work, tourism.

Transition Principal: LaTosha Andrews-Bonds

Students in the **Natural Resources** school of study will explore the science of the world and strive to make a positive impact on the world through scientific inquiry and discovery. Career fields include: agriculture, biology, chemistry, environmental science, geology, horticulture, meteorology, veterinary science.

Transition Principal: Jason Grasty
