Health Insurance Portability and Accountability Act of 1996 (HIPAA)

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal law that addresses the privacy and security of certain individually identifiable health information, called protected health information (or PHI). You have certain rights with respect to your PHI, including a right to see or get a copy of your health and claims records and other health information maintained by a health plan or carrier. For a copy of the Notice of Privacy Practices, describing how your PHI may be used and disclosed and how you get access to the information, contact Human Resources.

Women's Health and Cancer Rights Act Enrollment Notice

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Woman's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient, for:

1. All stages of reconstruction of the breast on which mastectomy was performed.
2. Surgery and reconstruction of the other breast to produce a symmetrical appearance; prostheses.
3. Treatment of physical complications of the mastectomy, including lymphedema.

These will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under this benefits plan. If you would like more information on WHCRA benefits, call your plan administrator at.

Newborns' and Mothers' Health Protection Act Disclosure

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Certain employer-sponsored health plans are required by the privacy regulations issued under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") to maintain the privacy of your health information that the plan creates, requests, or is created on the Plan's behalf, called Protected Health Information ("PHI") and to provide you, as the participant, covered dependent, or qualified beneficiary, with notice of the plan's legal duties and privacy practices concerning Protected Health Information.

The terms of this Notice of Privacy Practices ("Notice") apply to the following plans (collective and individually reference in this Notice as the "Plan"):

- Group Medical and Prescription Drug Plans
- Group Dental and/or Voluntary Dental Plans

This Notice describes how the Plan may use and disclose your PHI to carry-out payment and health care operations, and for other purposes that are permitted or required by law.

The Plan is required to abide by the terms of this Notice so long as the Plan remains in effect. The Plan Reserves the right to change the terms of this Notice as necessary and to make the new Notice effective for all PHI maintained by the Plan. DEFINITIONS:

Plan Sponsor means Elkhart Community Schools and any other employer that maintains the Plan for the benefits of its associates.

USES AND DISCLOSURES OF YOUR PROTECTED HEALTH INFORMATION

The following categories describe different ways that the Plan may use and disclose your PHI. For each category of uses and disclosures we will explain what we mean and, when appropriate, provides examples for illustrative purposes. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted or required to use and disclose PHI will fall within one of the categories.

Your Authorization – Except as outlined below or otherwise permitted by law, the Plan will not use or disclose your PHI unless you have signed a form authorizing the Plan to use or disclose specific PHI for an explicit purpose to a specific person or group of persons. Uses and disclosures of your PHI for marketing purposes and/or for the sale of your PHI require your authorization. You have the right to revoke any authorization in writing except to the extent that the Plan has taken action in reliance upon the authorizations.

Uses and Disclosures for Payment – The Plan may use and disclose your PHI as necessary for benefit payment purposes without obtaining an authorization from you. The persons to whom the Plan may disclose your PHI for payment purposes include your health care providers that are billing for or requesting a prior authorization for their services and treatments of you, other health plans providing benefits to you, and your approved family member or guardian responsible for amounts, such as deductibles and co-insurance, not covered by the Plan.

For example, the Plan may use or disclose your PHI, including information about any medical procedures and treatments you have received, are receiving, or will receive, to your doctor, your spouse's doctor or other health plan under which you are covered, and your spouse or other family members, unless you object, in order to process your benefits under the Plan. Examples of other payment activities include determinations of your eligibility or coverage under the Plan, annual premium calculations based on health status and demographic characteristics of persons covered under the Plan, billing, claims management, reinsurance claim, and review of health care services with respect to medical necessity, utilization review activities, and disclosures to consumer reporting agencies.

Legal Notices 2021

Uses and Disclosures for Health Care Operations – The Plan may use and disclose your PHI as necessary for health care operations without obtaining an authorization from you. Health care operations are those functions of the Plan it needs to operate on a day-to-day basis and those activities that help it to evaluate its performance. Examples of health care operations include underwriting, premium rating or other activities relating to the creation, amendment or termination of the Plan, and obtaining reinsurance coverage. Other functions considered to be health care operations include business planning and development; conducting or arranging for quality assessment and improvement activities, medical review, and legal services and auditing functions; and performing business management and general administrative duties of the Plan, including the provision of customer services to you and your covered dependents.

Use or Disclosure of Genetic Information Prohibited – the Genetic Information Nondiscrimination Act of 2009 (GINA), and regulations promulgated thereunder, specific prohibit the use, disclosure or request of PHI that is genetic information for underwriting purposes. Genetic information is defined as (1) your genetic tests; (2) genetic tests of your family member; (3) family medical history, or (4) any request of or receipt by you or your family member's genetic services. This means that your genetic information cannot be used for enrollment, continued eligibility, computation of premiums, or other activities related to underwriting, even if those activities are for purposes of health care operations or being performed pursuant to your written authorization.

Family and Friends Involved in Your Care – If you are available and do not object, the Plan may disclose your PHI to your family, friends, and others who are involved in your care or payment of a claim. If you are unavailable or incapacitated and the Plan determines that a limited disclosure is in your best interest, the Plan, may share limited PHI with such individuals. For example, the Plan may use its professional judgment to disclose PHI to your spouse concerning the processing of a claim. If you do not wish us to share PHI with your spouse or others, you may exercise your right to request a restriction on your disclosure of your PHI (see below), including having correspondence the Plan sends to you mailed to an alternative address. The Plan is also required to abide by certain state laws that are more stringent than the HIPAA Privacy Standards, for example, some states give a minor child the right to consent to his or her own treatment and, under HIPAA, to direct who may know about the care he or she receives. There may be an instance when your minor child would request for you not to be informed of his or her treatment and the Plan would be required to honor that request.

Legal Notices 2021

Right to Inspect and Copy your PHI – You have the right to request a copy of and/or to inspect your PHI that the Plan maintains, unless the PHI was compiled in reasonable anticipation of litigation or contains psychotherapy notes. In certain limited circumstances, the Plan may deny your request to copy and/or inspect your PHI. In most of those limited circumstances, a licensed health care provider must determine that the release of the PHI to you or a person authorized by you, as your "personal representative," may cause you or someone else identified in the PHI harm. If your request is denied, you may have the right to have the denial reviewed by a designated licensed health care professional that did not participate in the original decision. Request for access to your PHI must be in writing and signed by you or your personal representative. You must ask for a Participant PHI Inspection Form from the Plan through the Privacy Officer at the address above. If you request that the Plan copy or mail your PHI to you, the Plan may charge you a fee for the cost of copying your PHI and the postage for mailing your PHI to you. If you as the Plan to prepare a summary of PHI, and the Plan agrees to provide that explanation, the Plan may also charge you for the cost associated with the preparation of the summary.

To be considered, your amendment request must be in writing, must be signed by you or your personal representative, must state the reasons for the amendment request, and must sent to the Privacy Office at the address below. If the Plan denies your amendment request, the Plan will provide you with its basis for the denial, advise you of your right to prepare a statement of disagreement which it will place with your PHI, and describe how you may file a complaint with the Plan or the Secretary of the US Department of Health and Human Services. The Plan may limit the length of your statement of disagreement and submit its own rebuttal to accompany your statement of disagreement. If the Plan accepts your amendment request, it must make a reasonable effort to provide the amendment to persons you identify as needing the amendment or persons it believes would rely on your unamended PHI to your detriment.

Right to Request an Accounting for Disclosures of Your PHI – You have the right to request an accounting of disclosures of your PHI that the Plan makes. Your request for an accounting of disclosures must state a time period that may not be longer than six years and may not include dates before April 14, 2004. Not all disclosures of your PHI must be included in the accounting of the disclosures. Examples of disclosures that the Plan is required to account for include those pursuant to valid legal process, or for law enforcement purposes. Examples of disclosures that are not subject to an accounting include those made to carry out the Plan's payment or health care operations, or those made with your authorization. To be considered, your accounting requests must be in writing and signed by you or your personal representative and sent to the Privacy Office at the address below. The first accounting in any 12-month period is free; however, the Plan may charge you a fee for each subsequent accounting you request within the same 12-month period.

Legal Notices 2021

Right to Place Restrictions on the Use and Disclosure of Your PHI – You have the right to request restrictions on certain of the Plan's uses and disclosures of your PHI for payment or health care operations, disclosures made to persons involved in your care, and disclosures for disaster relief purposes. For example, you may request that the Plan not disclose your PHI to your spouse. Your request must describe in detail the restriction you are requesting. The Plan is not required to agree to your request but will attempt to accommodate reasonable requests when appropriate. The Plan retains the right to terminate an agreed-to restriction if it believes such termination is appropriate. In the event of a termination by the Plan, it will notify you of the termination. You also have the right to terminate, in writing or orally, any agreed-to restriction. Requests for a restriction (or termination of an existing restriction) may be made by contacting the Plan through the Privacy Office at the telephone number or address below.

Request for Confidential Communications – You have the right to request that communications regarding your PHI be made by alternative means or at alternative locations. For example, you may request that messages not be left on voice mail or sent to a particular address. The Plan is required to accommodate reasonable requests if you inform the Plan that disclosure of all or part of your information could place you in danger. The Plan may grant other requests for confidential communications in its sole discretion. Requests for confidential communications must be in writing, signed by you or your personal representative, and sent to the Privacy Office at the address below.

Legal Notices 2021

Mental Health Parity Act

The Mental Health Parity Act (the “Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008”) was signed into law on October 3, 2008, and the Federal Mental Health Parity (MHP) law becomes effective October 3, 2009.

The MHP law applies to group health insurers and to fully insured and self-insured ERISA groups of 51 or more employees that include mental health/substance use disorder benefits. It mandates equalization of copays, coinsurance, deductibles and the elimination of day and visit limits and financial maximums. This can be accomplished by applying the same limits as apply to the medical and surgical benefits, or by creating “separate but equal” limits. The Act does not require health plans to provide mental health/ substance use disorder benefits; however, if these benefits are offered, they must be at parity with the group’s medical and surgical benefits.

Self-funded government (non-federal) groups, such as school districts, city or county government are exempt from the law. The law does not affect Individual, Small Group (2-50), and Conversion/Portability plans.

The effective date for new groups will be October 16, 2009. The benefit will be enhanced for our existing groups at their renewals beginning November 1, 2009. Prior to renewal, a group may be contacted to verify the number of full- and part-time employees.

Care Management
Utilization Management activities are still allowed by the new law and are effective in managing the quality and cost of Mental Health and Chemical Dependency care.

If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs, but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

Medicare Part D Notice: Medical Plans
Important Notice About Your Prescription Drug Coverage and Medicare.

If you or any of your eligible dependents are eligible for Medicare, or will soon become eligible for Medicare, please read this notice. If not, you can disregard this notice.

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Elkhart Community Schools and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.

Elkhart Community Schools has determined that the prescription drug coverage offered by **UMR** is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays, and is therefore considered **Creditable Coverage.** Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When Can You Join A Medicare Drug Plan?
You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th through December 7th. However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?
If you decide to join a Medicare drug plan, your current **Elkhart Community Schools** coverage will not be affected. If you elect to participate in both **Elkhart Community Schools** Plan and Medicare Part D, your benefits may coordinate.

If you do decide to join a Medicare drug plan and drop your current **UMR** coverage, be aware that you and your dependents will not be able to get this coverage back.

If you have questions regarding your prescription drug coverage, you may contact the Plan Administrator noted below or **CVS Caremark at 888-202-1654**. You may also contact **UMR at 800-207-3172.**

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?
You should also know that if you drop or lose your current coverage with **Elkhart Community Schools** and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

Legal Notices 2021

If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.

For More Information About Your Options Under Medicare Prescription Drug Coverage…

Remember: Keep this Creditable Coverage notice.
